Dear Mr. Mortensen:

Re Tentative Approval, Utelite Mining and Reclamation Plan,
M/043/004, Summit County, Utah

The Division has reviewed Utelite's revised mine and reclamation plan which was received November 27, 1987. The plan has been found to be adequate and tentative approval is hereby issued. The Division will now forward a summary of the plan to the landowners and to the local newspaper agency for publishing.

The Division will take no further action concerning the Utelite Mine at this time, provided that no objections of substance are received from the landowners and public. Bonding will be deferred until a final decision is reached on the definition of "rock aggregate mining" in the new rules.

Thank you for your cooperation.

Sincerely,

Lowell Braxton
Administrator, Mineral Resource
Development and Reclamation Program
